

Rapha Health Franchise Advantage

1. High Potential for Profit and Growth

The health and wellness industry remains one of the strongest in the market today, and a steadily aging global population plagued by chronic diseases will continue to serve as its major market. A study by Euromonitor predicts a continued increase in value of the health and wellness industry due to the rise of medical tourism in the country.

2. A Unique Business

Rapha Health is a breath of fresh air in an industry that advocates synthetic drugs as a solution to every illness. Running the franchise means being part of a one-of-a-kind business venture that offers patients the best from both western and alternative medicine.

3. Total Support Franchise System

The Rapha Health Franchise System is designed for optimum performance, thus, all the support services you need to ensure a smooth running of the business will be provided by the franchisor. We will be there from the very start!

4. A Name You Can Trust

At the helm of Rapha Health is the husband and wife team of Dr. Cris and Dr. Linda Enriquez, both of whom are world-renowned experts in the field of Anti-Aging, Longevity, and Lifestyle Medicine, with the former being the only doctor in the world with four specialties and training in pulmonary medicine, cardiology, radiology and internal medicine.

After undergoing heart surgery for a stress-induced coronary artery disease in the mid-1990's, Dr. Cris C. Enriquez began to study alternatives that would help mitigate his heart condition without having to resort to drugs or surgery. Dr. Enriquez's journey led him to establish the Rapha Health Institute in Fort Lauderdale, Florida, USA in 1996.

In 2010 Dr. Cris Enriquez and his wife, Dr. Linda opened Rapha Health Institute in the Philippines at Greenbelt 5, Ayala Center in Makati City.

In 2014, Rapha Health Institute decided to expand throughout the Philippines through franchising.
